

# SUPPORT ERIC KING

Eric King is an imprisoned parent, artist, poet, and anarchist who needs support defending himself as he faces serious federal charges from the Bureau of Prisons (BOP).

Eric is serving a ten year sentence in BOP for *Use of Explosive Materials*

to *Commit Arson*. On 9/11/214, Eric threw two molotov cocktails through a window of an unoccupied Kansas City congressional building. Eric was charged in federal court & in 2016 he accepted a non-cooperating guilty plea and mandatory minimum 10-year federal sentence. As part of his plea and sentencing Eric publicly and proudly acknowledged that his intent was to take direct political action in solidarity with the community of Ferguson, Missouri following the August 2014 police killing of Michael Brown, Jr. He has been in BOP custody since he was sentenced in 2016.

In 2017 Eric was transferred to FCI Florence, part of the notorious federal prison complex in Florence, Colorado. On August 17, 2018 a Lieutenant from FCI Florence ordered Eric to attend a private "interview" in a prison storage room. BOP officers who removed Eric from the storage room heard him say that the Lieutenant attacked him and that Eric was defending himself. Officers took Eric out of the storage room and to the Special Housing Unit (SHU) where they stripped him, shackled him to a bed, and held him in isolation without ability to communicate with his loved ones or a lawyer for three days.

Eric had visible injuries when he was transferred out of Florence to USP Leavenworth 8/20/2018, & has experienced tingling in his limbs, headaches, blurred vision, and nausea daily since then.

## *The New Federal Charge*

In May 2019 Eric was indicted by a grand jury in the District Court of Colorado for a new federal felony charge of *Assaulting a Federal Official*. The charge is based on what the government says happened during the interview in the Florence storage room with the Lieutenant. **Eric now faces up to 20 additional years in federal prison, and is fighting this charge while still in the custody of his accusers.**

Even in prison, Eric is committed to using his poetry, art, and writing for liberation and a world free from domination and oppression. Eric's legal team is raising funds for his defense. Please show solidarity and donate at [fundrazr.com/e1cKo1](https://fundrazr.com/e1cKo1)
